

What is Powerlite Fiji?

Powerlite Fiji Pte Limited, a Fijian local based company established in 2003, is a service provider in various areas of work. Initially, the company specialized in the market of Electrification, recognizing the need for Power in the remote areas of Fiji.

Why is Fiji pursuing energy sustainability?

Fiji's pursuit of energy sustainability will contribute to improved economic prosperity and will support access to new technologies. This NEP supports both energy sustainability and energy security objectives through a specific focus on demand-side and supply-side energy efficiency improvements.

Why do businesses use solar energy in Fiji?

With on-site solar energy generation in Fiji, businesses can generate their own electricity and become less vulnerable to power outages, grid disruptions, and energy supply constraints. Many organisations in Fiji switch to solar energy as part of their commitment to sustainability and reducing their carbon footprint.

How will the Fijian government shape the development of Fiji's energy sector?

In shaping the development of Fiji's energy sector, the Fijian Government will pursue strategies that seek to promote and maintain a level playing field within Fiji's energy market where possible.

Will Fiji be able to produce 100% of electricity by 2030?

10.3.1 To derive as close to 100% of electricity services from renewable energy sources as possible by 2030. In keeping with Fiji's climate change commitments and development goals, Fiji will systematically scale up the transition to renewable energy-based electricity production.

How does Fiji ensure long-term energy security?

The Fijian Government seeks to ensure Fiji's long-term energy security by increasing the availability of data and information required to support investments designed to increase the reliability and resilience of the national energy infrastructure.
