

How can Namibia be energy-secure?

The gap is made up by electricity imports. In order to be energy-secure, Namibia needs to be energy-independent, given the risks in power supply within the SADC region. This requires Namibia's bolstering its own energy generation capacity with the available domestic resources.

Can Namibia be powered by off-grid energy?

While some regions of Namibia are most optimally served through grid-connected, utility-scale renewables, other locations are well-suited to being powered by off-grid applications.

What type of energy is used in Namibia?

Overall, primary energy in Namibia is derived from liquid fossil fuels (petroleum, diesel, paraffin, and liquefied petroleum gas), biomass (charcoal, wood, and processed wood products), and coal. At present, renewables play a very small role in the non-electricity energy sector.

What is Namibia's NIRP?

Namibia's NIRP will guide future procurement of electricity from Renewable Energy sources. This will create an opportunity for this RE Policy to provide more direction for the Renewable Energy sector and support an enabling environment to take advantage Namibia's abundant Renewable Energy resources.

Why is electricity Wheeling important in Namibia?

Government recognises the importance of electricity wheeling for the growth of Renewable Energy in Namibia in its further development of the electricity market framework. The Regulator shall consider the development of wheeling regulations that enable Renewable Energy projects (e.g. community solar initiatives).

Does Namibia have affordable financing for renewables?

Namibia is already taking steps towards affordable financing for renewables. The Environmental Investment Fund of Namibia has been set up to provide grants, green soft loans, green concessional loans and bursaries.

energy and domestic, industrial, and transportation fuels. The policy connects Namibia's renewable energy objectives to Vision 2030 and the commitments in the UN Sustainable Energy for All (SE4ALL). The Namibia Green Hydrogen and Derivatives Strategy was launched at COP27 in 2022. The strategy outlines Namibia's plan to
