

What is Flatiron energy?

Flatiron Energy develops, builds, owns, and operates standalone utility-scale energy storage. Energy storage systems that integrate renewable energy onto the grid, replace fossil fuel plants, and increase grid reliability. We are a team of energy storage veterans with a long track record of delivering operational and profitable projects.

Will Flatiron energy build a battery storage facility at 35 Electric Ave?

Flatiron Energy wants to put a two-story, 55,200-square-foot battery energy storage system facility at 35 Electric Ave., currently home to contracting company The Welch Corp., according to a letter of intent filed with the Boston Planning and Development Agency on Monday.

Will Flatiron build a battery storage facility in Chelsea?

Flatiron is also seeking to build a storage facility on Eastern Avenue in Chelsea. Last month, another battery storage developer, the BlackRock-owned Jupiter Power, revealed plans to build a 700-megawatt system on a 20-acre section of the one-time ExxonMobil oil tank farm in Everett.

Flatiron Energy is a Certified B Corporation. The Flatiron Energy team has deep expertise in energy storage project development, construction, finance, and asset optimization. Our mission is to reduce emissions that contribute to climate change and environmental injustice through the development of utility-scale energ

Flatiron Energy has submitted a Letter of Intent for a planned 55,170 square-foot, 2-story, Battery Energy Storage System facility at 35 Electric Avenue in Brighton. The approximately 2.8-acre parcel is comprised of multiple existing buildings, as well as a?

Jupiter Power this week announced plans to build a \$500 million-plus battery energy storage system on a 20-acre portion of the former Exxon tank farm. such as private equity-backed Flatiron

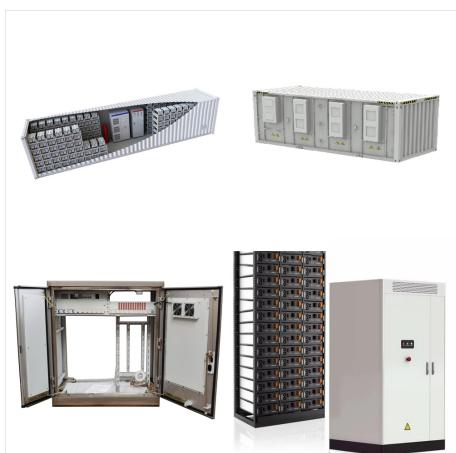

Flatiron Energy LLC, doing business as (d/b/a) Lite Bright Storage LLC (the "Proponent"), is proposing to construct a new two-storied battery energy storage facility at 35 Electric Avenue in the Brighton neighborhood of Boston. The Project will contain approximately 62,000 square feet of Gross Floor Area in a single two-storied building.

"Flatiron Energy LLC, doing business as (d/b/a) Lite Bright Storage LLC (the "Proponent"), is proposing to construct a new two-storied battery energy storage facility at 35 Electric Avenue in the Brighton neighborhood of Boston. The Project will contain approximately 62,000 square feet of Gross Floor Area in a single two-storied building.

Flatiron Energy has filed detailed plans for a proposed two-story battery energy storage facility at 35 Electric Ave in Brighton. The approximately 62,000 square feet project is expected to deliver enhanced reliability in the Boston Metropolitan Area.

Flatiron's systems provide energy during these periods, displacing dirty generation to reduce emissions and keep energy costs down. Energy storage makes the grid more resilient by helping balance supply and demand. Energy storage also enables a diverse mix of energy sources, like wind and solar, which promote energy independence.

Hull Street Energy has made an investment in Boulder-based Flatiron Energy, a developer and operator of utility-scale energy storage to meet the needs of the decarbonizing electric grid. No

-megawatt battery energy storage facility initiated a City of Boston Article 80 review. VHB is leading the review process for the project. Flatiron Energy recently filed a Project Notification Form for "Project Lite Brite," a 200-megawatt battery energy storage system (BESS) facility located in Brighton, Massachusetts, initiating

. Flatiron develops, owns and operates utility-scale energy storage facilities through a team that has worked on more than 6 GWh of storage projects in key energy markets across the country to date. The company's approach involves partnering with landowners, utilities and local community organisations.

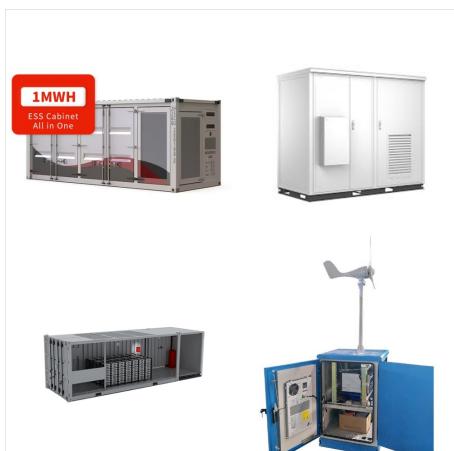

The zoning board of appeals approved a special permit and variance for the Flatiron Energy Energizer Storage battery storage facility proposed for 284 Eastern Ave. at its regular meeting last week. Flatiron Energy is an energy developer, owner, and operator that owns and operates the energy storage systems it develops.

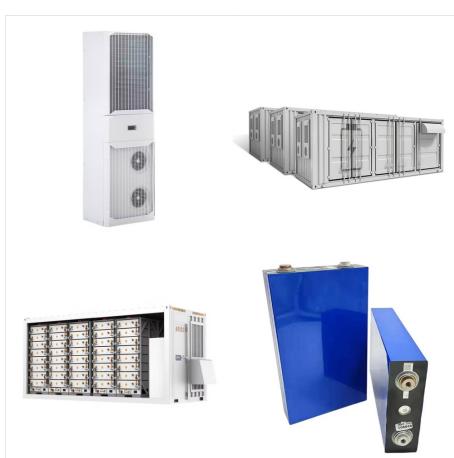

Flatiron Energy develops and operates large-scale battery storage systems to support the electricity grid and serve entire communities. Project Development and Operations Flatiron oversees the entire process of energy storage projects, from property acquisition to construction and long-term operations.

operating utility-scale energy storage to meet the needs of the decarbonizing electric grid. Plus Power, a company based in San Francisco, is proposing to build a 150-MW/300-MWh battery energy storage system south of Boston as traditional fossil fuel plants retire and renewable energy

BETHESDA, Md., Aug. 2, 2022 /PRNewswire/ -- Hull Street Energy ("HSE") has made a strategic investment in Flatiron Energy ("Flatiron"), a certified B Corp (pending) focused on developing, owning, and operating utility-scale energy storage to meet the needs of the decarbonizing electric grid. Flatiron is led by a diverse team of accomplished energy storage leaders with over 25

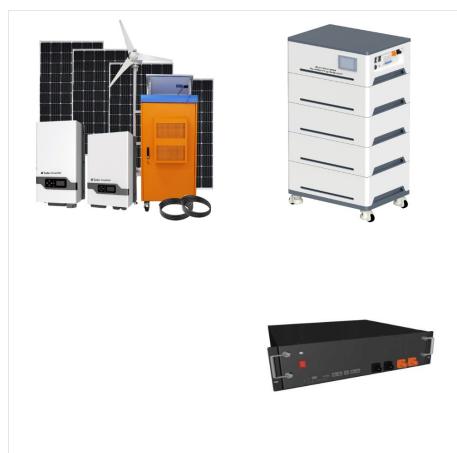

Jupiter's project arrives at a time when a number of battery storage developers, such as private equity-backed Flatiron Energy, are eye- ing New England. A spokesman for ISO New England said the largest battery energy storage system in New England is in Millinocket, Maine, with 20 megawatts of capacity, although several much larger projects

Flatiron Energy is a certified B Corp that develops, owns, and operates large-scale battery storage infrastructure. Flatiron's mission is to reduce harmful emissions that contribute to climate

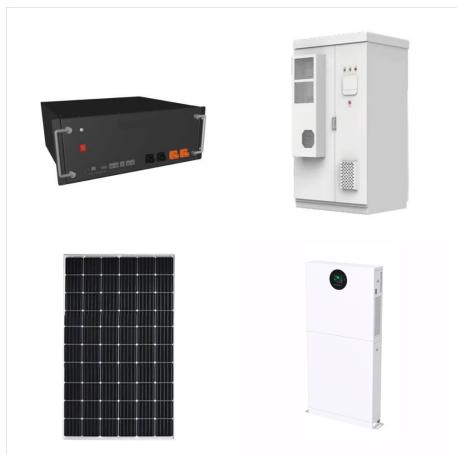

The planning board approved the site plan for the Flatiron Energy Energizer Storage battery storage facility proposed for 284 Eastern Ave. at its regular meeting last week. In addition, the board recommended approval of a special permit and variances for the project when it comes before the zoning board of appeals on Tuesday, Oct. 8.

Hull Street Energy, a private equity firm focused on investing in middle market energy companies, invested in Flatiron Energy, a certified B Corp that concentrates on large, utility-scale battery storage.

Anticipated future demand for renewable energy storage prompted a proposal for an industrial property's redevelopment near the Massachusetts Turnpike in Brighton. Colorado-based Flatiron Energy acquired the project from another developer in fall 2023. The proposal requires large project approval under Article 80 of the Boston zoning code

Flatiron Energy. Flatiron Energy is a certified B Corp that develops, owns, and operates large-scale battery storage infrastructure. Flatiron's mission is to reduce harmful emissions that contribute to climate change and environmental injustice through the development of energy storage projects that replace fossil fuel power plants and increase the availability of clean energy.

Boulder, Colorado-based Flatiron Energy develops energy storage facilities through property acquisitions and leases. The 2.8-acre property at 35 Electric Ave. in Brighton is currently occupied by The Welch Corp., a construction company, and a landscaping company. Flatiron Energy registered as a Massachusetts corporation in April and has
