The government of Eritrea has been making efforts to promote the use of alternative sources of energy, especially solar energy, to mitigate the problems associated with the use of fossil fuel. A major benefit of solar energy is that it does not pollute the environment and saves money in the long run even if its installation cost is quite high.

Solar Power CEE distributes Wood Chips and Pellets, PKS, Cocoa Husk to large Power Stations Worldwide to create carbon neutral Energy. Solar Power distributes High Quality Solar Panels for Solar Farms in Central and Eastern

FORNECEDOR DE PLACAS SOLARES ERITREA

Theo Guerre-Canon is the local project manager for Solarcentury's Eritrea project. He tells us about the high hopes he has for social and economic change in the area. Earlier this month we launched two solar-hybrid mini-grids. Theo explains: "70% of the electricity from the mini-grids will be generated by solar, the remainder by diesel.
