

Who built the largest solar power plant in North Macedonia?

Slovenia's energy group GEN-I completed the construction of the largest solar power plant in North Macedonia and connected it to the grid in September, four months ahead of the government's deadline.

How will a new solar plant help Macedonia?

Andi Aranitasi, EBRD Head of North Macedonia, said: "The new solar plant will help the country, which faces severe air pollution from coal, to reduce its reliance on ageing coal-fired infrastructure. It will also generate cheap electricity in times of very high market prices.

Why is Gen-I launching a solar power plant in North Macedonia?

The start of operation represents an important milestone for the expansion of GEN-I in the implementation of large solar power plant projects and the production of carbon-free electricity as well as a key contribution to the so-called Green Scenario of North Macedonia under the Strategy for Energy Development.

How much solar power does North Macedonia have?

Solar power Built on a former lignite open pit mining site, North Macedonia's Oslomej solar park will have an installed capacity of 120 MW when fully completed. © Ciril Jazbec

Is North Macedonia a good place to invest in green energy?

Dimitar Kovačevski, Prime Minister of North Macedonia: "It is really a great pleasure to be here today, where once a big environmental polluter was located and now we are producing green energy. The benefits of this investment are manifold.

Does North Macedonia need a coal phase-out?

Even though the country has historically been dependent on lignite coal mining for around 30% and gas imports for an additional 15% of its electricity production, it has nonetheless set very ambitious goals for decarbonization. As part of the Powering Past Coal Alliance, North Macedonia has committed to a coal phase-out by 2027.

Frecon: G?ne?? Enerjisi Sulama Sistemlerinde G??l? Bir Oyuncu. Frecon, ?zellikle g?ne?? enerjisi sistemlerinde kullan??lan pompa s?r?c?leri ve inverterler ile tan??nan bir markad??r. Tar??msal sulama, bah?e sulama ve benzeri uygulamalarda g?ne?? enerjisinden maksimum verim almay?? hedefleyen bu cihazlar, g?venilirlikleri ve uygun fiyatlar??yla ?ne ???kmaktad??r.

The EU will continue to be a strong partner in providing assistance for the implementation of renewable energy projects with the goals of promoting economic growth, environmental protection and ultimately bringing the Republic of North Macedonia closer to the European Union."

Additional investments in solar power plants are planned in North Macedonia. The WBIF has already approved financing for an extension of the plant in Oslomej 2 and the construction of a new plant in Bitola for a combined total capacity of 30MW. The EU is supporting this investment with a ???5.1 million investment grant.

FRECON SOLAR NORTH MACEDONIA

The government of North Macedonia has recently improved the net metering scheme for solar installations and has launched a ???1 billion rebate scheme to support the deployment of rooftop PV

The results of the study are unambiguous: North Macedonia has an enormous untapped potential for renewable energy development. Even when completely excluding all important bird and plant areas, the potential comes to ???

The first large-scale solar plant in North Macedonia ??? financed with the support of the European Union, WBIF bilateral donors and the European Bank for Reconstruction and Development (EBRD) has been connected to the power ???

Slovenia-based GEN-I connected its 17 MW solar power plant southeast of Skopje to the grid four months before the deadline. It is the largest photovoltaic facility in North Macedonia and the Western Balkans.

The first large-scale solar plant in North Macedonia ??? financed with the support of the European Union, WBIF bilateral donors and the European Bank for Reconstruction and Development (EBRD) has been ???
