ECO-WORTHY 1KW Off Grid Pure Sine Wave
Inverter is a compact inverter that easily connects to a 12V DC battery and provides up to 1000 watts of continuous AC power and 2000 watts of surge power for demanding applications. Off-grid inverters convert DC power stored in batteries to AC power that can be used as needed.

Manually select the source of power for single-phase load up to 63A. Frequently used in solar off-grid power systems if AC source 1 is disconnected AC source 2 can be switched on. The switch is operated manually between 3 positions (source 1, off, source 2). It is used in a hybrid of off-grid solar and wind applications with dual-fed power to a single-phase AC load.
