FRIMAX will be at the 38th Lead Acid Battery
Innovation Conference. The conference will be held
in Milan (Italy) from September 16 to 19. In
addition, the new equipment will be equipped with
intelligence to increase the efficiency of the
manufacturing process and reduce the scrap. New
Contract 2021. January 2021

We are an engineering that desing and manufacture
high efficiency equipment for lead acid and Thin
plate pure lead (TPPL) plate production
collaborating with leading OEM and aftermarket
lead acid battery manufacturers worldwide, offering
a complete traking, monitoring and maintenance
service for all our battery machines.

FRIMAX BATTERY EQUIPMENT MALAWI

More than 25 years in the sector supplying equipment for the production of plates to the most recognized battery manufacturers worldwide guarantee our quality and professionalism. PURE LEAD (TPPL) PLATE The Frimax Flash Dry Oven is an equipment which is used in the plate production line to dry uniformly the plates or panels by a convection

Nuestro equipo técnico altamente cualificado y con más de 30 años de experiencia en tecnologías para la fabricación de placas aplicadas al sector de baterías, ofreciendo soluciones personalizadas a las necesidades de nuestros clientes con las tecnologías más avanzadas e innovadoras en fabricación de placas en la sección de empastado.

FRIMAX based in Azuqueca de Henares, Spain. Designs, develops and manufactures machines for high speed production of lead-acid batteries and industrial automations for all industries.
