

Who is Taranis energy?

Taranis Energy is a leading Canadian manufacturer of advanced lithium battery technology solutions. We specialize in designing and building high-performance lithium batteries. Our mission is to power the world's transition to sustainable energy by providing reliable, efficient, and affordable battery solutions.

What is Taranis nature-based solutions?

Through Taranis Nature-Based Solutions, Taranis is investing in projects to protect or restore natural ecosystems. Our ambition is to promote projects which preserve or improve carbon absorption of ecosystems such as forests, grassland, wetlands or coastal areas while also benefiting local communities and biodiversity.

What is Taranis carbon ventures?

Taranis Carbon Ventures is Taranis' Venture Capital fund investing in innovative hardware companies with proven technologies that have a significant impact on the development of a Carbon Circularity (CO2 capture and storage, reuse applications and plastics recycling).

What is Taranis objective?

Taranis objective is to deploy this strategy within Perenco group geographies. Taranis is an investment and asset management company owned by Perenco Group. It operates through distinct investment fund.

thanks to their opportunity charging capability

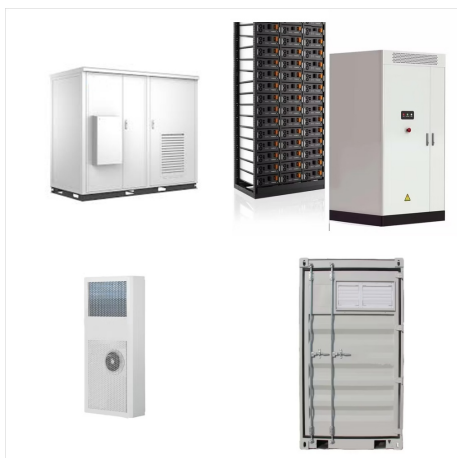

We are excited to announce our collaboration with Rilus Bikes to develop a cutting-edge battery system for their electric motorcycles. Designing a battery for electric bikes presents unique challenges, particularly when balancing compact size with high performance. With Rilus, we took this challenge to a new level. Our

The DE-Series is a reliable, long-lasting, and low-maintenance power source. With their superior performance and efficiency, lithium batteries offer numerous advantages over traditional lead-acid batteries, including longer lifespan, faster charging times, and reduced weight. Fully enclosed steel case, advanced battery

Taranis Energy Inc. ("Manufacturer") warranties each Taranis battery to be free of defects in material and workmanship for a duration period of 5 years, after the date of purchase, as evidenced by the original receipt (the "Warranty Period"). If your battery fails due to a defect during the Warranty Period, you may obt

This 48 Volt Kit works with 105Ah and 230-320Ah Cells plus others with the same physical characteristics. Takes only a few minutes to assemble, no soldering, wire work or advanced knowledge required. BMS has a 100A continuous discharge, 70mA passive balancing, temperature sensors, built in Bluetooth and UART connector

Welcome to our Industrial section. Please select the appropriate section from the Industrial drop down menu on top. If you are not sure what battery you need or have any questions please contact us directly. We are happy to help.
