

What is Solarman smart?

SOLARMAN Smart is a brand new smart energy management application, which is specially designed for global household owner users. With full-on visual experience, user-friendly data display and all-round monitoring functions, SOLARMAN Smart makes smart energy management easier for everyone. Why Choose SOLARMAN?

How reliable is Solarman smart?

It's highly reliable and accurate, with compact size and easy to install. SOLARMAN Smart is specially designed for end-users, offering an extremely interactive experience with comprehensive functions such as real-time monitoring and control of home appliances, customized infographic displays and power consumption analysis.

What products does Solarman offer?

offers a complete solar monitoring & management hardware products include various data logger, smart meter, weather station, optimizer, rapid shutdown and so on. SOLARMAN brings comfortable and eco-friendly life to global users. SOLARMAN has established a close cooperation relation with ZCS in Italy, CORAB in Poland.

What is Solarman solution?

SOLARMAN solution covers whole life-cycle of devices, capable of smart product management and remote problem-solving. SOLARMAN empowers PV professionals such as installers, O&M service providers and distributors, to streamline business process, to realize highly efficient O&M by cutting-edge technologies.

What is Solarman business?

SOLARMAN Business is a feature-rich software platform that covers whole life cycle of PV plants, perfectly serving all your requirements.

What services does Solarman provide?

Experienced technical engineers will provide online instant Q&A and remote trouble shooting services for global customers. SOLARMAN will provide field services for product installation and commissioning. Notice: Extra fees will be charged for field service overseas.

GLOBAL HOME SOLARMANPV COM BAHAMAS

SOLARMAN Smart simplifies smart energy management for global solar households. Its user-friendly interface and all-round monitoring capabilities support various solar systems such as grid-tie, off-grid and storage system. Users can easily track their data, including production, consumption, grid and battery status from a glimpse of energy flow

Recently, a cross-border cooperation between SOLARMAN and IKEA has grown smoothly. IKEA distributed industrial& commercial PV plant in Tianjin has officially accessed to SOLARMAN platform. Ingka Group is a strategic partner in the IKEA franchise system, operating 374 IKEA stores in 30 countries. It has bought 9 PV plants (capacity: 440MW) in ???
