RV Solar Panels; Roof Mounted Solar Kit; Rigid Panels; 200 Watts; the Go Power Solar Elite charging system provides clean, renewable power and independence from the grid.

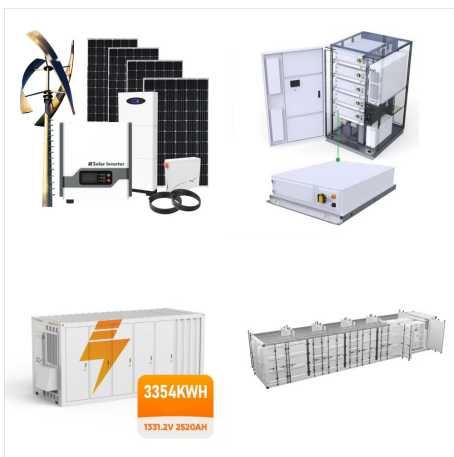

We started with a 170 watt Zamp panel and two group 27 deep cycle batteries which provide 105 usable amp hours at 50 % discharge. It worked fine in partly cloudy to full sun, but after three or four days of cloudy weather or mostly shade it would struggle to keep up. We added two Renogy 100 watt panels and a portable 50 watt panel.

GO POWER 170 WATT SOLAR PANEL

-watt Portable Solar Kit (PSK) folding solar module offers some of the most versatile and convenient battery charging options. Ideal for those who don't want to permanently mount solar to a rooftop or want to supplement a roof top system. Adjustable folding legs to maximize solar exposure and for compact easy storage.

Most RV solar panels today are about 20% efficient, whereas Go Power solar panels are as high as 21.5%. It may not seem like a huge difference, but the average efficiency number has only risen by 2% in the past five years.

The Go Power!
