

What is Italy's agrivoltaic scheme?

From pv magazine Italy The European Commission has approved Italy's EUR1.7 billion scheme for agrivoltaics. The program is designed to deploy 1.04 GW of installed solar. It will also award incentives to agricultural businesses in the form of one-time investment grants and 20-year tariffs.

Does Italy have a roadmap for solar power development?

Yet, Italy has the potential to do more. In general, Italy lacks a clear roadmap for the development of solar capacity. Financial incentives include tax deductions for PV system purchases and investment subsidies at regional levels, with recent initiatives targeting rooftop solar PV in agriculture and low-income households.

How does the European Commission support agrivoltaic projects in Italy?

The European Commission has approved a EUR1.7 billion (US\$1.8 billion) scheme to support the deployment of 1.04GW of agrivoltaics projects in Italy. Set to run until the 31 st December, 2024, the funding comes in part through the Recovery and Resilience Facility, which was introduced by the EU to aid in economic recovery from the COVID-19 pandemic.

Does Italy need a solar PV system?

While Italy has made significant strides in solar PV installations, additional measures are needed to enhance financing, training programs, and public awareness. Additionally, improvements in grid infrastructure are crucial to support the transmission of renewable electricity across regions.

How will Italy contribute to the green energy transition?

This EUR5.7 billion scheme enables Italy to support the production and self-consumption of renewable electricity by energy communities. It will strengthen citizens' engagement and first-hand participation in the green energy transition by supporting local communities to multiply renewable power generation installations.

What does the European Commission's EUR5.7 billion scheme mean for Italy?

The European Commission announced last week it had approved a EUR5.7 billion scheme for the deployment of energy communities in Italy. The initiative supports the expansion of small existing renewable power generation projects and new projects that are no bigger than 1 MW, according to the press release.
