

What are American Solar scam calls?

American Solar scam calls are fraudulent calls in which a scammer poses as American Solar or a similarly named company. Their goal is to gain personal information by making bogus offers for free or low-cost solar energy services.

Are solar panels a scam?

That is, of course, also a scam. To protect yourself from clean energy scams: Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more.

How do I know if a solar energy company is a scam?

Look out for callers that create a sense of urgency, offer unbelievable deals, or solicit personal information. Legitimate solar energy companies won't ask for private information like dates of birth, Social Security numbers, or financial details. What should I do if I receive a suspicious call about solar energy?

Are solar energy scam calls dangerous?

Solar energy scam calls can be dangerous, and falling victim to one can bring about severe consequences like financial fraud and identity theft. The good news is that there are ways to spot a scam and get out of it unscathed. Since phone scams often use the same tactics, it stands to reason that they come with many of the same warning signs.

Is a for-profit company soliciting solar panels by phone?

We have received numerous reports that a for-profit company called American Solar is soliciting by phone. The American Solar Energy Society (ASES) differs from the business "American Solar." ASES does not make outgoing solicitation calls or sell solar panels, as we do not engage in telemarketing of any kind.

Should you choose a reputable solar energy company?

When temperatures rise, utility costs do, too. While reputable companies can help you save money with clean or solar energy improvements, scammers offer more than they can deliver.
