

We pride ourselves in the most comprehensive portfolio of products, systems, solutions and services to optimize the performance, reliability and return on investment of any solar installation ??? from residential rooftops to commercial and industrial applications and utility-grade power plants.

Your Hometown Solar Power and Borehole drilling Provider. Unobtrusive and easy to maintain, Solar Photovoltaic panels can produce a solid portion of your home's electricity year-round, saving you a bundle on utility costs while reducing your carbon footprint. Saving money.

Featuring a robust 10KW capacity and a 48V system, this inverter ensures optimal performance, catering to both residential and commercial energy needs. Its pure sine wave output guarantees a stable and clean electrical supply, safeguarding your sensitive appliances and devices.

Hydrogeological Survey & Borehole Drilling. In order to improve access to water in water-scarce areas of Uganda, GPI has a team of expert hydrogeologists, water resource engineers and an experienced drilling team. We have the capacity to scan up to 500 meters.
