

Greener Power Solutions provide services related to mobile battery solutions in the Netherlands with a portfolio of 60 containerized mobile batteries. Through its mobile batteries, the company provides contracted mobile green power solutions to customers who have insufficient or no grid connection capacity available.

At GPS, we redefine the future of power and lighting solutions. As a leading rental company, we empower our customers with cutting-edge generators, state-of-the-art battery technology, hybrid lighting, and sustainable biodiesel storage and supply.

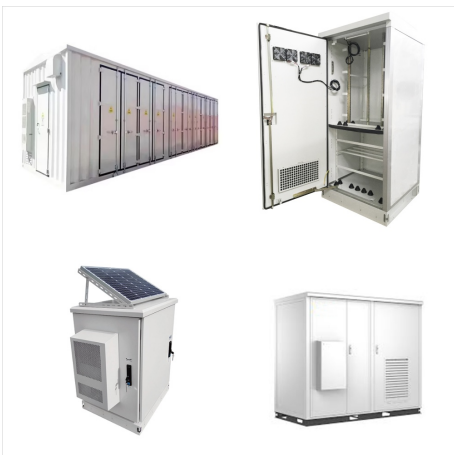

Greener Power Solutions supplies low-CO<sub>2</sub> temporary energy solutions in grid-edge and off-grid situations. The growing fleet (now 13) of mobile battery systems of 318KVA / 336 kWh provides peak-shaving solutions and grid balancing in micro- and national-grids. The batteries are used as a stand-alone energy source or in combination with grid

Green Power Solutions, set up in 1998, has gained since then a recognized name in the field of high power electronics, thanks to its unique ability to serve this business with a global approach. The product line of Green Power Solutions includes today: high power semiconductor devices, accessories, open assemblies, component kitting, design

Greener was founded in January 2018. We make an impact on the CO2-footprint in on- and off-grid energy markets using mobile batteries and energy planning. We were shocked to discover how little thought had gone into accurately and efficiently planning the power supply of equipment such as lights, audio and food trucks. We see solutions

Greener Power Solutions | 7,385 followers on LinkedIn. We deliver clean and sustainable power solutions for any project, everywhere! | We are Greener Power Solutions. A pioneer in the temporary energy market and the fastest-growing energytech in Europe. Our mission is to provide emission-free energy everywhere.
