

What is a greenlinx battery?

Greenlinx are the UK's first battery to use High Power Density (HPD) Lithium Cells, which can utilise 100% of the battery capacity (other lithium batteries can only use 90%). This is a battery unit that can easily be retrofitted into an existing solar panel system, or be a part of the design from the initial planning. So it is a flexible system.

How many greenlinx batteries can be connected?

Modular - from 1 to 8 Greenlinx batteries can be connected. PRICE INCLUDES INSTALLATION Good communication before and after I purchased an extra 6.5kW battery for my existing system. Battery arrived within the time stated. Friendly and knowledgeable installation team arrived on the same day and fitted battery without a hitch.

What is luxpower & greenlinx?

LuxPower & GreenLinx is the UK's first battery system to benefit from High Power Density Lithium Cells. The highest charge & discharge rates from a single battery With 100% DOD! Prices are for full supply and installation. LuxPower Squirrel 7.2Kw charge /discharge rate also available. Call for best prices.

How does a greenlinx 3200 HPD lithium battery work?

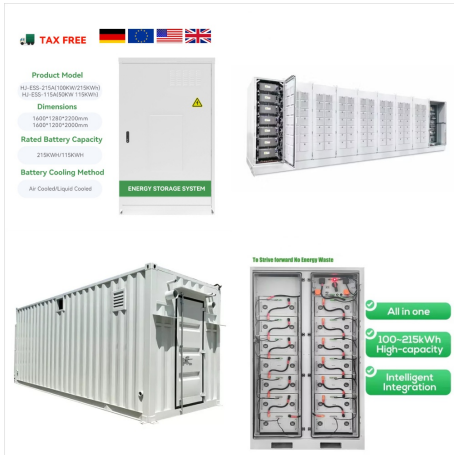

Each Greenlinx 3200 HPD Lithium battery has an individual modem inbuilt, which means simple connection of each battery to the internet allows specific monitoring, technical support and future upgrades should it be needed.

Who makes greenlinx battery storage?

Greenlinx are exclusively distributed by Infinity Innovations Ltd. in the UK and Europe. While they are quite recent to the UK market they are by no means new to the battery storage industry. As later arrivals to the domestic battery storage market they have certainly raised the bar in almost all areas of performance and technological development.

Who is greenlinx?

Greenlinx is an established manufacturer of renewable technologies including battery storage products. The domestic and commercial battery solutions are distributed globally and have obtained a good market share as customers appreciate their quality.
