

Lumcloon Energy Ltd received planning permission in August last to develop the battery energy storage facility on a 4.45 hectare site, at Lumcloon, which fronts onto the R357 between Blueball and Cloghan.

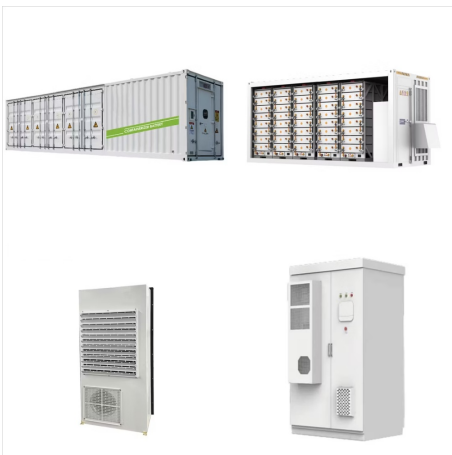

Construction is currently underway on the two energy storage sites at Lumcloon and Shannonbridge in Co. Offaly and once operational, the units will represent the largest operating batteries on the island of Ireland and one of the largest portfolios in Europe.

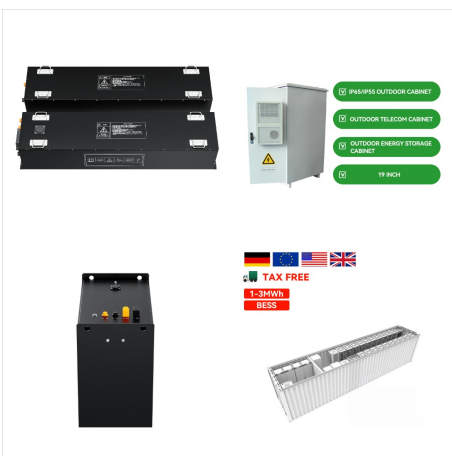

Offaly based Lumcloon Energy Limited, founded by local entrepreneur Nigel Reams, has agreed a partnership with (giant) South Korean energy company, Hanwha Energy Corporation, to develop two new 100MW sustainable energy projects in the Midlands

VPI Holding Ltd (VPI) today announces that it is to enter into a joint venture with leading Irish flexible generation development company Lumcloon Energy Ltd to build a new 275MW Open Cycle Gas Turbine ???

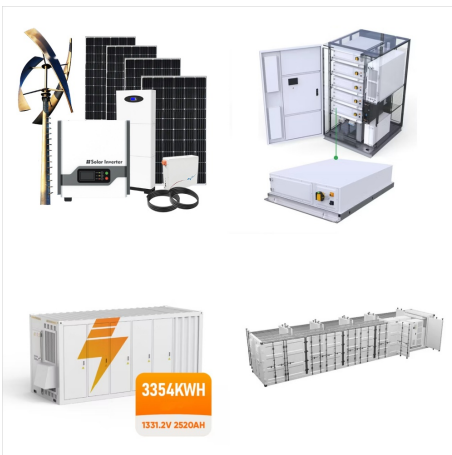

Offaly based Lumcloon Energy Limited, founded by local entrepreneur Nigel Reams, has agreed a partnership with (giant) South Korean energy company, Hanwha Energy Corporation, to develop two new 100MW ???

Grenada; Guatemala; Guinea; Guinea-Bissau; Guyana; Haiti; Honduras; Hong Kong; Hungary; Iceland; India; Indonesia; Iran; Lumcloon Energy starts the construction of 200 MW Storage battery in Offaly. Hanwha Energy Corp and Lumcloon Energy Ltd have started the construction of 200 MW of energy storage systems in Ireland's County Offaly. The

Based in Lumcloon and Shannonbridge in west Offaly, the two 100 MW battery energy storage plants will involve a combined investment of ???150 million and provide more than 120 jobs during the construction phase, which will be completed in early 2021.

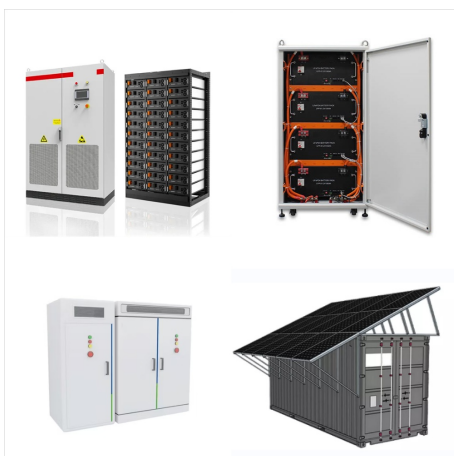

This is the privacy notice of Lumcloon Energy Limited. In this document, "we", "our", or "us" refer to Lumcloon Energy Limited. We are company number 463897 registered in Ireland. Our registered office is at Parsons House, Axis Business Park, Tullamore, Co. Offaly.

Lumcloon Energy | 580 LinkedIn Project Development Specialists- Enabling a low carbon future | Lumcloon Energy was founded by Nigel Reams in 2008 as a project development company focused on flexible power and energy assets. Nigel brought together a team with complementary skills and experience who work together to realise his vision.

The project scope includes the construction of two separate facilities, one at Lumcloon and one at Shannonbridge. The BESS Facilities provide short term battery energy storage for surplus energy from the National Grid which is subsequently transferred back into the National Grid at Peak Energy Demand Periods.

MW BESS and Shannonbridge 100MW BESS are our landmark projects. This 200MW portfolio entered operation in early 2021. These BESS projects utilise high-power batteries to provide System Services to suit the Irish power system needs, under the DS3 System Service programme.

Construction has started on a project in Ireland pairing a battery energy storage system (BESS) with a synchronous condenser, developed by Lumcloon Energy and Hanwha Energy. Prime minister (Taoiseach) Michael Martin marked the start of construction yesterday (6 September) at the project, called Shannonbridge B, in central Ireland.

A partnership between a local developer and South Korea's Hanwha Group could bring two 100MW battery energy storage projects to the Midlands of Ireland, the developer, Lumcloon Energy, has confirmed.

The Shannonbridge B project is Hanwha Energy's third ESS project in Ireland, following the two 60-MWh Frequency Regulation (FR)\* ESS projects, 120-MWh in total, completed in two sites in central Ireland in 2021. Construction on the plants began in 2019 with financing provided by the Export-Import Bank of Korea, and operation of the plants officially ???

Lumcloon Energy Ltd received planning permission in August last to develop the battery energy storage facility on a 4.45 hectare site, at Lumcloon, which fronts onto the R357 between Blueball and Cloghan.

Writing on social media site LinkedIn, Irish network operator ESB Networks said it had enabled the connection and energisation of the project ??? situated in the Lumcloon townland ??? on behalf of Lumcloon Energy, describing it as a "great achievement for battery storage" in Ireland.

Castlelost FlexGen facility comprises of a 275MW reserve gas-fired generator, Energy Storage System, a Synchronous Condenser and Gas Insulated Switchgear to support and back up the electrical grid. These technologies complement each other, as together they provide a comprehensive range of electricity capacity and ancillary services to the grid
