A significant milestone of the project is designing and implementing a model for sustainable waste separation, collection and recycling of plastic waste for the OECS that will consider self-financing, sustainability and business viability.

GRENADA WASTE SORTING CABINETS

This agreement, covering up to 90% of GHTA's membership, marks a pivotal step in addressing plastic waste challenges. Hotels across the island have committed to introducing waste sorting at their facilities and delivering sorted plastics to the GSWMA Recycling Centre, setting the trend for sustainable tourism practices in the Eastern Caribbean.

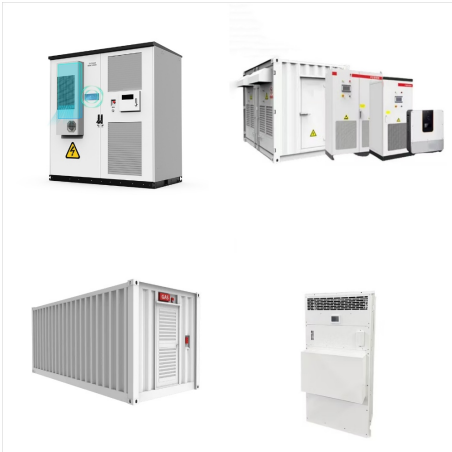

However, the regulatory and enforcement functions for solid waste management remains with the Ministry of Health. In an effort to carry out its function, the Authority adopted as its Motto "Striving for a Cleaner and Healthier Environment".

The demonstration projects in Grenada and Dominica provide essential insights into the feasibility of implementing a plastic waste treatment infrastructure across the OECS, with the potential to strengthen the region's economy and safeguard its marine and coastal resources.

GRENADA WASTE SORTING CABINETS

We offer functional and sustainable waste sorting systems that stay hidden behind your cabinet fronts. No matter how big or small your living space or how much waste you produce: the extensive VS ENVI (R) product range offers solutions for every household, from large families down to individual persons.

Mount this pull-out frame inside your cabinet to hide your waste sorting behind a door. Easy to mount and use in cabinets throughout the home. The pull-out frame gives you quick access and a good overview of your waste sorting and keeps your bin stable. Pull it out to sort and push it back when you are done.

Hotels across the island have committed to introducing waste-sorting at their facilities and delivering sorted plastics to the GSWMA Recycling Centre, setting the trend for sustainable tourism practices in Grenada and the wider the Eastern Caribbean in general.

GRENADA WASTE SORTING CABINETS

A significant milestone of the project is designing and implementing a model for sustainable waste separation, collection, and recycling of plastic waste for the OECS that will consider self-financing, sustainability, and business viability.

Waste sorting plays a crucial role in determining whether waste can be recycled or ends up being incinerated. Recycling kitchen waste has a significant positive impact on CO2 emissions, reducing them by 589,000 tons annually, as estimated by the Danish Environmental Protection Agency if all Danish households actively sort their waste.
