

Global energy storage group NHOA, formerly Engie EPS, has been awarded a 30MWh battery energy storage system (BESS) to be developed in Peru. Engie Energ?a Per? will install the BESS at the site of the 800MW Chilca thermal power plant in Peru, where it will deliver primary frequency regulation services for the country's grid.

dedicated to energy storage, is pleased to announce the successful commissioning of a 31MWh battery storage system for ENGIE Energ?a Per?, supplied on a turn-key basis and located in ???

The system is now operational with its over 31MWh of storage capacity, enhancing Peruvian grid stability. With this project NHOA Energy consolidates its proven experience in thermal power plant retrofitting, a crucial application to reduce CO 2 emissions at the electrical system level.

GRID ENERGY STORAGE SYSTEMS PERU

The battery-based energy storage system to be installed in the 800MW Chilca power plant will improve the Peruvian grid stability by providing Primary Frequency Regulation services, bringing economic benefits while increasing the system efficiency.

NHOA Energy, NHOA Group's (NHOA.PA, formerly Engie EPS) (Paris:NHOA) business unit dedicated to energy storage, announce the successful commissioning of a 31MWh battery storage system for ENGIE Energ?a Per?, supplied on a turn-key basis and located in its ChilcaUno thermoelectric power plant.

NHOA Energy, a subsidiary of NHOA Group, has successfully commissioned a 31 megawatt-hour (MWh) battery energy storage system for Engie Energ?a Per?'s ChilcaUno thermoelectric power plant in Chilca, Peru. NHOA Energy supplied the battery storage system on a turnkey basis and

inaugurated it in September 2023.
