

Solar PV Installation. Efficient and environmentally friendly, the use of solar PV or solar panels in Guernsey is on the up. A fantastic investment, they are a great way to make your home or property more energy efficient and eco-minded.

A solar panel project at a Guernsey charity is now complete and will power about 40 homes, Guernsey Electricity said. There are 310 photovoltaic panels on the roof of the newly reopened Guernsey

Should the roof be simply covered over by panels and utilise standard solar hooks or is the age of the roof such that solar limpets are used, thus maintaining the integrity of the roof, or should the roof be replaced. St Sampsons, Guernsey, ???
