

How many solar panels are there in Guernsey?

A solar panel project at a Guernsey charity is now complete and will power about 40 homes, Guernsey Electricity said. There are 310 photovoltaic panels on the roof of the newly reopened Guernsey Rural Occupational Workshop (Grow) site. The charity worked with Guernsey Electricity and The Little Green Energy Company on the scheme.

Could a solar farm be built on fresh Guernsey herbs site?

A HUGE solar farm could be created on the former Fresh Guernsey Herbs site, if planning permission is granted. Guernsey Herbs has applied for permission to turn the vinery in Les Abreuveurs Road into a solar farm. (Picture by Peter Frankland, 32539032)

Could solar panels save guernsey's 'mouth-watering' economy?

Jack Fletcher, from Renew Guernsey, told ITV News that widespread solar panel installation across Guernsey could not only produce greener energy, reducing the island's carbon footprint, but could also bring 'mouth-watering' economic benefits to the island.

What is the biggest solar project in Guernsey?

A decision on the application for the 8.33 acre farm, which is a similar size to eight football pitches, will be decided at a later date. Nick Crolla, head of sales and marketing at Rubis, told BBC Radio Guernsey: 'It is going to be the largest solar project in Guernsey.'

Could a large-scale solar farm be built on a glasshouse site?

A planning application for a large-scale solar farm on a glasshouse site has been submitted. The plans for Les Abreuveurs Solar Farm Project have been submitted by Rubis Channel Islands. Fuel supplier Rubis wants to build the solar farm on the former site of Fresh Guernsey Herbs.

Is there a waiting list for solar panels in Guernsey?

Guernsey firms say there is now a six-month waiting list to have solar panels installed. Credit: ITV Channel Guernsey is seeing an increase in demand for solar panels to be installed on houses with homeowners looking for cheaper energy alternatives. There is now a six-month waiting list for islanders to have panels

3 ? High planning fees could discourage owners of disused greenhouse sites from using them for renewable energy, the architectural technologist behind the successful Fresh Guernsey Herbs solar farm application has said. Mr Bourgaize said in this case they were only using about half of the site for panels ??? as there are ancillary buildings and

Guernsey Electricity and The Little Green Energy Company have together completed works to install a vast community-scale solar array on the roof of the newly reopened Grow headquarters. The newly installed 310 photovoltaic (PV) panels will produce 129-kilowatt peak power (kWp), enough electricity to supply power to approximately 40 homes.

The greenhouses, which cover 80% of the site, will be replaced by solar panels, which are expected to generate 2.95MW of renewable energy, which is more than half of the island's 2025 target. The States' new Electricity ???

GUERNSEY SOLAR PANELS ON GREENHOUSES

The greenhouses, which cover 80% of the site, will be replaced by solar panels, which are expected to generate 2.95MW of renewable energy, which is more than half of the island's 2025 target. The States' new Electricity Strategy has targets of achieving 5MW of renewable energy by 2025 and 10MW by 2028.

In 2023 Guernsey Electricity worked in conjunction with The Little Green Energy Company to install the vast community-scale solar array at Grow Limited's newly redeveloped headquarters. The 310 photovoltaic (PV) panels will produce 129-kilowatt peak power (kWp). That's enough electricity to supply power to approximately 35 homes.
