

In a bid to reshape Haiti's energy landscape, USAID and NREL will support Haiti's ministries and government in formulating the country's Integrated Resource and Resilience plan, which is a comprehensive energy sector master plan that envisions a sustainable, secure, and resilient energy future for Haiti.

Agriculture company Freshbay announced this month it has reached a \$29,000,000 agreement with Novus Earth to move forward on a geothermal-controlled project near Hinton. The collaboration also involves Affinor Growers, which signed its agreement with Freshbay three weeks ago.

The USAID-NREL Partnership is working with Haiti to expand energy access through long-term energy sector planning support and minigrid development and deployment. Throughout its history, Haiti has experienced repeated natural disasters, including hurricanes, tropical storms, flooding, and earthquakes.
