Solar power car? 1/4 ? Hanergy exhibited a whole-solar-powered car called "Hanergy SolarPower". It is a conceptual car. It will finalized the future direction of Hanergy's future solar power cars. According to Hanergy's official description, the car has two electric motors to transmit the power to the rear axle, with an endurance of 300km.

Hanergy Launches Country's Largest Thin-film Solar Power Industrial Park in the Netherlands - The 11.4 MW park, named as "Roodehaan" spans across 22 hectares and aims to produce annually the

As the largest thin-film solar company in the world, Hanergy invests to and constructs large ground-mounted solar power stations in various areas in Europe, such as our 2 MW Solel Achaia project in Greece. In this way, the land will be turned into high-value ground-mounted solar power stations, providing more green energy.

As Hanergy's full solar power vehicles acquire power directly from the sun, they do not depend on charging posts and thus have no need to bother with "distance per charge" anymore, making "zero charging" possible during medium and short distance journeys. Breaking the bottleneck of poor practicality of previous solar-powered vehicles, the four

Hanergy's triple arch solar tile. Source: Hanergy Thin Film Power Group Ltd. China's Hanergy Thin Film Power Group Ltd (HKG:0566), or Hanergy TFP, on Saturday expanded its distributed solar offerings by launching its own solar roof tile for the domestic market.

The HANERGY Thin Film Solar Backpack is an innovative and practical solution for anyone who wants to stay connected while on the go. With its unique solar panel design, this backpack can convert sunlight into electricity, providing a reliable and sustainable power source for charging your devices.
