It is important to note that the solar panels Harbor Freight sells are NOT meant as a home energy solution as they mainly offer 100 Watt panels which are more suited to charging devices or powering small appliances.. Most people that use these set them up as supplemental power for a shed or garage or perhaps as an off-grid solution to help power a few things at a cabin or while ???

Designed to compensate for small, steady battery drains from the vehicle's clock or alarm system, this solar charger mounts easily to the windshield or dash and conveniently plugs into your car's 12 volt cigarette lighter port. With an amorphous crystal solar array, this solar charger provides superior performance in bright sun and in partial

To hell with the harbor freight kit. Go on Amazon and find a solar panel you want and a portable power station for the panel to charge. How good the system depends how much you are willing to spend. I have a power station that can do 500 running watts so it can power a radiator style space heater i have but a full charge only lasts about an hour.

I have this system just to provide lights in a detached shed, it was my introduction to solar power. I use the Harbor Freight 35AH agm battery and there is no problem with discharging at night or overcast conditions. I think you have a faulty panel. B. Bud Martin Solar Wizard.
