The topography surrounding Gibraltar is mostly hilly terrain with some flat areas located in the north and south. Areas near Gibraltar that would be most suited for large-scale solar PV include: La Linea de la Concepcion, San Roque, Algeciras, Los Barrios, Tarifa, Sotogrande and Estepona.

2 ? The Gibraltar government is seeking developers to install rooftop solar systems at selected sites across the British Overseas Territory. It will also consider proposals for solar canopies and

Our photovoltaic (PV) solar racking equipment is best-in-class, ranging from in-ground fixed-tilt and single-axis tracker mounts to roof and carport mounts. We also offer project management capabilities designed to serve project developers and system integrators.

This is a significant investment which will provide a greener, more resilient future for Gibraltar. It is important to understand, however, that the new Battery will not be able to eliminate power cuts completely.
