The Health and Energy Platform of Action (HEPA) aims to build the political, and financial commitment as well as strengthen the capacity of the health and energy sectors to work together to ensure universal access to clean and sustainable ???

The global Health and Energy Platform of Action (HEPA) aims to ensure universal access to clean and sustainable energy to protect health. With an initial focus on clean cooking and health-care facility electrification, the Platform aims to catalyse the scale of results required to achieve SDG 3 on health and SDG 7 on energy by:

Kiribati: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.

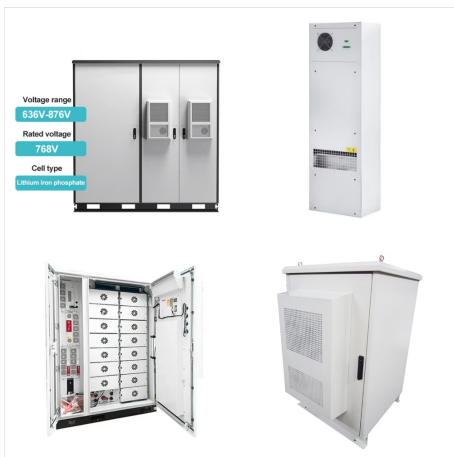

The Health and Energy Platform of Action (HEPA) aims to build the political, and financial commitment as well as strengthen the capacity of the health and energy sectors to work together to ensure universal access to clean and sustainable energy to protect health.

The resulting Kiribati Integrated Energy Roadmap (KIER) highlights key challenges and presents solutions to make Kiribati's entire energy sector cleaner and more cost effective. As a small, remote island state, Kiribati is highly dependent on imported energy supply.

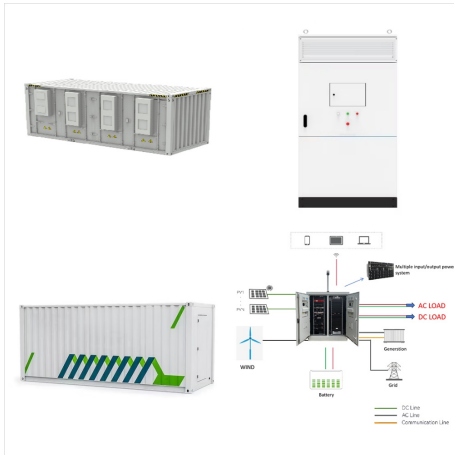

All members are committed to working together and synergizing efforts on the ground to accelerate universal electrification of health care facilities and clean cooking. This HEPA action report summarizes the key activities and results achieved and highlights activities under each of HEPA's five objectives.

The resulting Kiribati Integrated Energy Roadmap (KIER) highlights key challenges and presents solutions to make Kiribati's entire energy sector cleaner and more cost effective. As a small, remote island state, Kiribati ???

Dr Tedros Adhanom Ghebreyesus, Director-General of WHO, announced his vision to build a "Health and Energy Platform of Action" (HEPA) to enhance multisectoral collaboration between the health and energy sectors and mobilize the political and financial commitments needed to achieve Sustainable Development Goals (SDGs) 3 and 7.
