

Who is hero future energies?

Hero Future Energies is a leading global renewable energy developer, providing advanced solutions in solar, wind, hybrid RE and green hydrogen, both utility scale and for businesses. Join our sustainable future mission.

Why did KKR invest in hero future energies?

The investment in Hero Future Energies builds on KKR's extensive experience in India and the renewables sector. Since 2011, KKR has deployed over \$15 billion in equity globally to invest in renewable assets, such as solar and wind, which have an operational power generation capacity of 23 GW, as of December 31, 2021.

How will hero's capacity additions work?

Hero's capacity additions will go towards producing wind and solar energy as well as battery storage technologies, and will be funded internally and through a mix of debt and equity, Munjal said.

JSW Neo Energy (), Hero Solar Energy (Hero Future Energies), Vena Energy, Hexa Climate Solutions and Serentica Renewables won significant capacities in Solar Corporation of India's auction to supply 630 MW of firm and dispatchable renewable energy (FDRE) from inter-state transmission (ISTS)-connected projects anywhere in India under FDRE Tranche IV.

As per SECI, JSW Neo Energy, Serentica Renewables India, ReNew Solar Power and Hero Solar Energy were the winners in the auction by SECI. The tender was issued in July 2023 to supply power to distribution companies in Punjab and Madhya Pradesh. Both land and ISTS connectivity will be under the scope of the selected renewable energy developers.

Acme Solar Holdings secured 350 MW and Hero Solar Energy 250 MW. Pace Digitek Infra won 100 MW. SECI had launched the tender to set up 1.2 GW of solar PV projects with 600 MW/1,200 MWh energy storage systems (ESS) on a build-own-operate basis in India, in March this year. The projects can be located anywhere in India and must connect to the
