HIGH POWER SUPPLY SYSTEM

USB 3.0 HUB

Anker USB 3.0 SuperSpeed 10-Port Hub. The Anker USB 3.0 SuperSpeed 10-Port Hub is the best option for power users seeking high-speed data and efficient charging in a single device. The hub comes with a strong 60W power adapter and a special charging port that adheres to the BC 1.2 standard, providing super-fast charging speeds.

This power budgeting is new and improved over USB 2.0 specifications, where 100 mA was hard limit, no balancing. In theory, a bus-powered hub must advertise its power source in hub configuration descriptor. USB system software will then apply power policy and refuse to connect any USB device when the power budget is depleted.

There's a USB-C power pass-through you can plug your laptop's power adapter ??? up to a 100-watt unit ??? so that you can charge your computer while using this hub (the USB-C port does not

HIGH POWER SUPPLY SYSTEM

USB 3.0 HUB

b. Insufficient power supply from the computer's USB port. Please connect the USB hub to the USB port positioned on the back of the frame, instead of on the front, to ensure sufficient power supply. c. The device is being plugged in too slowly. As a result of the USB 3.0 interface design, the system will recognize devices as USB 2.0 when they
