

What does Hitachi do?

Reimagining how we work, improving how we live, and transforming the world around us. All of us. The Hitachi Group offers a wide range of energy solutions, including clean energy, power generation systems and nuclear energy, with the goal of achieving carbon neutrality.

What is Hitachi energy network manager?

Modular, utility-friendly, and cohesive, Hitachi Energy's Network Manager helps you leverage data, people, and systems to enhance operational resiliency. Hitachi Energy offers complete grid and substation automation control products and solutions locally or globally to keep your assets safe & secure.

Who is Hitachi energy?

Hitachi Energy manufactures and supplies a comprehensive range of capacitors and filter solutions that improves the power quality of electrical networks. We are proud to pioneer a reliable 5G-enabled communication network for industrial & utility customers, ensuring connectivity where and when it matters most.

What services does Hitachi energy offer?

Hitachi Energy offers distribution and power transformers, Dry-type and EconiQ(TM) Transformers as well as services, for industrial and commercial applications. Modular, utility-friendly, and cohesive, Hitachi Energy's Network Manager helps you leverage data, people, and systems to enhance operational resiliency.

What is Hitachi energy's pure water cooling system portfolio?

Hitachi Energy's pure water cooling systems portfolio offers energy-efficient solutions for industrial and power transmission applications. As asset-intensive industries digitalize, they become more vulnerable to disruption.

What is Hitachi energy's power semiconductor portfolio?

Hitachi Energy offers one of the most diverse power semiconductor portfolios, including GTOs, IGBTs, IGCTs, Thyristors, and Diodes in different power ranges. Learn more.

IEDs, PIU/MU, RTUs, SCADA, DMS, cybersecurity and asset management - the complete portfolio to cover grid and substation automation.
