

What are Hitachi batteries used for?

The Hitachi's R&D Group is developing battery of "long operating life", "high power", "high energy density", "high durability", "safety", and "low cost" for automotive applications. These batteries are now widely used in hybrid electric small-sized trucks, buses and hybrid railway motorcars.

Why should you choose Hitachi high-tech battery manufacturing equipment?

To improve battery productivity and ensure quality, start with the device selection first. Reliable and proven Hitachi High-Tech's manufacturing equipment broadly covers battery manufacturing processes. Hitachi High-Tech has a wealth of experience in providing rechargeable battery manufacturing equipment for over 30 years.
