

What is Holcomb energy systems?

Holcomb Energy Systems is setting a new industry standard in electric power generation. Our core technology, the Holcomb Energy System (HES), is an entirely new source of energy -- using no fuel and putting out zero emissions, it is scalable, silent, and point of use.

Why was Holcomb energy systems showcased at the new energy technology conference?

Thrilled to have virtually showcased Holcomb Energy Systems at the New Energy Technology conference in Zurich, Switzerland. With over 300 participants gathered at the auditorium, it was an honor for us to share our innovation on such a significant platform.

Who is Dr Holcomb?

Dr. Holcomb has also patented numerous environmentally friendly products, processes, and devices, including a CO2 converter that captures CO2 in power plant emissions and in the atmosphere and converts it back to its base elements, and a unique water purification system. Thank you so much for joining us in this interview series.
