At Itron, we have a strong partner community and network, which includes channel partners in Latin America. Representatives are an extension of the Itron team, with people who deeply understand the challenges of the industry and can offer real-time solutions to solve those challenges in your local language.

With the highest output and capacity range available, the Stack'd Series battery is the right solution for residential and small commercial storage projects. From small off-grid cabins, to peak rate TOU (time-of-use) offset, family homes in suburbia, and small commercial projects, the HomeGrid Stack'd Series battery is the proven best choice.

Our Home as a Grid approach breaks traditional boundaries and enables far more flexibility in how and when you use your electricity. It's about what happens at home, "behind the meter." With our strategic approach to home energy management, you can still just flip the switch to turn the lights on regardless of where the power comes from???rooftop solar, energy storage systems, ???

With built-in anti-theft structures and operation on DLMS/COSEM protocol, these meters seamlessly integrate with AMI solutions, enabling remote control capabilities. INHE's commitment to providing top-notch products tailored to the client's needs underscores its dedication to delivering reliable and efficient solutions.

HOME GRID SOLUTIONS COLOMBIA

Our company has over 120 electrical substations, installations that modify and establish voltage levels, and over 71,500 kilometers of medium and low voltage grids serving Bogota and the neighboring rural areas of Cundinamarca ??? a ???

Colombia, with its proximity to the equator, boasts abundant sunshine throughout the year. This makes it a prime candidate for harnessing solar energy, a clean and renewable alternative to traditional power sources.

Renu Energy Solutions provided the materials and installed an 8.4 kW array on my garage. Their installation crew did an excellent job, from ensuring the standoffs on the roof were properly secure and leak-proof, that rails and panels were correctly attached, and finally the system was attached to the inverter on the side of the building.

HOME GRID SOLUTIONS COLOMBIA

Focus on Off-Grid Solutions: Special programs exist to promote solar power in remote areas where grid access is limited. This includes subsidies for off-grid solar systems and support for community solar projects.

In Colombia, "off-grid" is typically associated with the peripheries of the country, rather than the economic and political centres; however, there remain communities without access to electricity that are located within the central grid electrified zone. which means distributed off-grid solutions will need to be found [7], [8]

Current Programs Mission, Vision & Values
ColumbiaGrid is a membership non-profit corporation providing regional grid planning in the Northwest portion of the Western Interconnection that strives for excellence and exists to: ; ensure and enhance the reliability of the transmission grid via collaborative, cooperative, cost-effective, efficient and insightful long-term ???
