

Does Huawei luna2000 back up box work with LG Chem HV?

The Huawei Back Up Box works with either the LG Chem HV or the new Huawei LUNA 2000 battery modules. The box features a 5kW backup power rating which is more than enough for essential loads. Compatible with Huawei Inverters series M1. Also available Huawei Luna2000 BackUp Box for 1 phase compatible with Huawei hybrid inverters. [Download](#)

How much power does a Huawei luna2000 have?

Some important points about the Huawei Luna2000 are: It's only compatible with specific Huawei inverters. It has Battery Modules of 5 kilowatt-hours each. Up to six can be used for a maximum of 30 kilowatt-hours of storage. One Battery Module can provide 2.5 kilowatts of continuous power while two or more can provide 5 kilowatts.

Can a backup box charge a luna2000 from a solar panel?

The Backup Box can charge the Luna2000 from solar panels when the grid is down, and with an L1 Huawei inverter allows complete off-grid use. It's suitable for outdoor installation but can't be installed within 500m of the sea. Its warranty should last most households a full 10 years but allows battery capacity to deteriorate down to 60%.

Which Huawei inverters are compatible with the luna2000 battery?

Three Huawei inverters are compatible with the Luna2000 Battery: L1 single-phase inverters such as the SUN2000-5KTL-L1. These range from 2-6 kilowatts and are capable of full off-grid operation with the Luna2000 battery. M0 three-phase inverters such as the SUN2000-5KTL-M0. These range from 3-10 kilowatts.

How much does a Huawei luna2000 Solar System cost?

If your solar system already has a compatible Huawei inverter it's likely you can have a 10 kilowatt-hour version installed for under \$10,000. Some important points about the Huawei Luna2000 are: It's only compatible with specific Huawei inverters. It has Battery Modules of 5 kilowatt-hours each.

How long does a Huawei luna2000 battery last?

HUAWEI LUNA2000 BACK UP SYSTEM 3 PHASE

Its warranty should last most households a full 10 years but allows battery capacity to deteriorate down to 60%. Because Huawei has demonstrated it is capable of producing reliable electronics and because it's a giant company unlikely to disappear any time soon -- in my opinion -- the Luna2000 should be a low-risk home battery purchase.
