

Why should you choose Zytech solar photovoltaic modules?

The Zytech Solar photovoltaic modules are characterized by their efficiency, reliability and robustness. We have adapted to different markets with maximum flexibility in the powers, for all types of projects:

Who makes Zytech solar modules?

SUPPLIED MODULES. Zytech is one of the leading Manufacturer of PV Solar Modules. With its HQ in Spain, since 2006, the Company has supplied over 400MW of Solar Modules globally. The Company is constantly expanding production capacities signing partnerships with Tier 1 Manufacturers.

What does Zytech do?

The Zytech group offers competitive photovoltaic and solar thermal solutions to solve the problems with our sources of energy through a decentralised environmentally friendly energy supply. Tomorrow's modern and fair minded world will no longer be imaginable without solar power technology.

Where is Zytech based?

With its HQ in Spain, since 2006, the Company has supplied over 400MW of Solar Modules globally. The Company is constantly expanding production capacities signing partnerships with Tier 1 Manufacturers. Zytech group has its presence in Spain, France, Germany, Italy, Egypt, China, Hong Kong, Taiwan, Singapore, USA, Mexico and India.

Where is Zytech Solar located?

Zytech Solar is located at 1182 20th Street, San Diego, CA 92102, USA. Their phone number is +1 619-878-2730 and their email is usa@zytechgroup.co.

Does Zytech solar offer monocrystalline or polycrystalline photovoltaic modules?

Zytech Solar offers monocrystalline or polycrystalline photovoltaic modules. The silicon cells are procured from the world's top suppliers. The cell efficiency is from 14.5% to 19.5% in monocrystalline and 13% to 20.5 % in polycrystalline.

ZYTECH has built a good reputation at home and abroad with top quality products, advanced Solar solution and cheerful after-sales service. ZYTECH devotes itself in researching, developing and manufacturing a full range of Solar products with most cost-effective solution.

Zytech Solar is one of the largest manufacturers of Solar PV Modules in Europe. Headquartered in Spain, the award-winning company has its own production plants in Spain, India, Japan and China, with a total production capacity of 300MW, and subsidiaries in Germany, Italy, France, U.S. and Mexico.

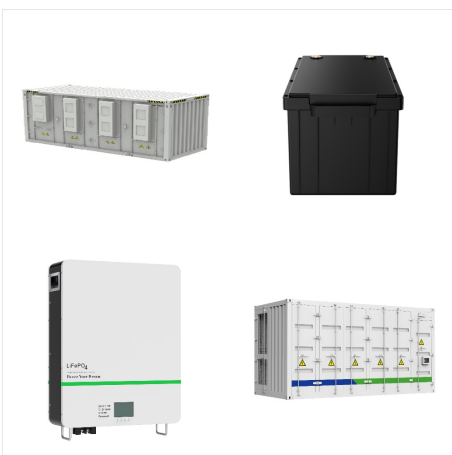

The Zytech Solar photovoltaic modules are characterised by their efficiency, reliability and robustness. We have adapted to different markets with maximum flexibility in the powers, for all types of projects: ON-grid-connected installations: Solar photovoltaic farms; photovoltaic installations on industrial, commercial, agricultural and

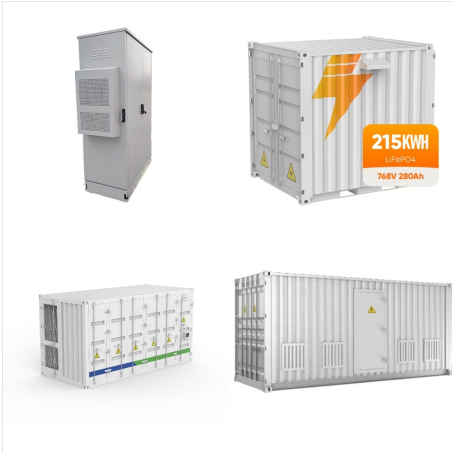

Zytech Solar has many years of experience with commercial rooftop and ground mounted systems and emphasizes quality and reliability for its systems. We use only high efficiency modules with our own solar module design to ensure that the system can run for 20 years.

Zytech Solar is more than just a service provider; they are partners in true sense. From understanding our needs to providing post-installation support, they've been there at every step, ensuring our journey to solar is nothing less than perfect."

The Zytech group offers competitive photovoltaic and solar thermal solutions to solve the problems with our sources of energy through a decentralised environmentally friendly energy supply. Tomorrow's modern and fair minded world will no longer be imaginable without solar power technology.

Zytech is one of the leading Manufacturer of PV Solar Modules. With its HQ in Spain, since 2006, the Company has supplied over 400MW of Solar Modules globally. The Company is constantly expanding production capacities signing partnerships with Tier 1 Manufacturers.
