

Unlock the power of efficient energy management with the Deye ESS Battery Module Model BOS-G. Engineered for both home and business applications, this state-of-the-art energy storage solution combines high-voltage capacity with advanced technology, making it the perfect backup power system for your needs.

The BOS-G series utilizes advanced LiFePO4 cell technology, known for its superior thermal stability, high cycle life, and excellent safety profile. Each battery module has a nominal capacity of 100Ah and energy of 5.12 kWh, allowing you to scale your system to perfectly match your energy storage requirements.
