

Is re a solution to energy problems in the Gambia?

Policy makers across africa have been among the last to embrace Re as a solu-tion to their energy problems. They are often locked into crisis management on a day-to-day basis. The country's policy makers need to be persuaded that Re has a real futurein the energy mix of The Gambia. They need to demonstrate this by their actions.

What challenges does the Gambia face today?

This Renewables Readiness assessment report lays out the energy challengesthat The Gambia faces today,along with ways the country has supported the development of renewable energy programmes. it shows the impact these programmes have had on the energy land-scape,as well as the enormous constraints that still remain.

How much solar power does the Gambia have?

According to the International Renewable Energy Agency (IRENA),The Gambia only had 2 MWof installed solar photovoltaic capacity at the close of 2022. Similarly,in the realm of wind energy,only small-scale projects initiated by private investors and non-governmental organizations are currently in operation.

Why is access to electricity important in the Gambia?

Providing access to electricity to support inclusive and sustainable socio-economic developmentis one of the pivotal cornerstones of the Gambia government's priorities as articulated in the national energy sector policies and strategies,and highlighted in the National Development Plan (2018-2021).

What is the government electrification strategy in the Gambia?

The government electrification strategy has embraced both grid-based and off-grid options. The Gambia has abundant renewable energy resources that could help meet growing demand. The Gambia has abundant solar energy resources across the country,a good biomass resource in most areas,and a modest wind regime along the coast.

Is the Gambia ready for a green energy revolution?

The Gambia's green energy revolution, its commercial potential for green hydrogen production and more will

be explored at the upcoming MSGBC Oil, Gas & Power 2023 conference and exhibition.

Exclusive support for families from YES Energy Solutions in partnership with Cadent and Magic Breakfast. Cadent Gas and Magic Breakfast YES is working with gas distribution network Cadent and charity Magic Breakfast to offer their holistic wrap around support to families in schools across the North West of England.

One month later, the government signed another MoU with H2 Gambia Limited, a subsidiary of the UK-based HydroGenesis Group, at African Energy Week 2023 in Cape Town to further explore the commercial prospects for hydrogen production. Renewable energy and green hydrogen present a dual solution to The Gambia's energy deficit.
