

What is the IHS Markit energy storage service?

Energy storage is at the heart of this transition enabling sector-coupling. The IHS Markit Energy Storage Service is a premium service, which provides clients with a deep and comprehensive understanding of the global energy storage industry. The service provides clients with frequently updated and very granular data and analysis.

What is IHS Markit?

Leveraging this unique position in the energy storage industry, IHS Markit will help clients maximise opportunities and anticipate future trends in this rapidly growing market. The largest dedicated energy storage database globally with individual project level data for more than 3,500 projects.

How much energy will IHS Markit generate in 2025?

IHS Markit projects a tripling in annual grid-connected energy storage installations from 2020 to 2025, reaching 15.1GW/47.8GWh. At the same time, annual hardware revenues (battery modules, PCS and balance of plant) of US\$4.2 billion in 2020 will rise to US\$9.5 billion in 2025.

Can I use the IHS Markit logo?

Any unauthorized use, disclosure, reproduction, or dissemination, in full or in part, in any media or by any means, without the prior written permission of IHS Markit Ltd. or any of its affiliates ("IHS Markit") is strictly prohibited. IHS Markit owns all IHS Markit logos and trade names contained in this presentation that are subject to license.

Does IHS Markit make a warranty?

IHS Markit makes no warranty, expressed or implied, as to the accuracy, completeness, or timeliness of any information in this presentation, and shall not in any way be liable to any recipient for any inaccuracies or omissions.

How does IHS Markit rank system integrators?

As the chart below shows, IHS Markit surveyed dozens of leading system integrators and produced rankings based on metrics including installed and planned projects by megawatt. While the idea of a top 10 ranking is
