

The panels we select produce up to 60% more energy from the same space over 25 years than conventional panels. With the industry's best 25-year warranty, we stand behind products and build systems to last. Best-In-Class Installation. Since 1996, Independent Power has helped homeowners upgrade their homes with renewable energy.

Tony Boniface, Owner and President of Independent Power Systems. In July 2016 MREA talked with Tony Boniface, so I moved down to Boulder in 2005, keeping the Bozeman branch open, and started business all over again. As I had expected the market boomed in Colorado, and within three years I had almost 40 employees in that office.

Independent Power's business and team are growing and they're thrilled to announce their move from North Boulder to 4775 Walnut Street, Boulder 80301. They've been serving the Front Range community since 2008, helping the community switch to renewable energy and home and business electrification with modern technologies like solar, battery

Josh, Kaelan, Marino and TJ from Independent Power installed a mini split heat pump system at my house in Boulder. They were efficient, installed everything neatly and professionally, figured out how to connect power with minimal impact or holes, and were friendly and polite. Highly recommend! read more. linda m king. 17:23 22 Mar 24

BOULDER ??? Independent Power Systems Inc., a Boulder solar technology and energy services provider, is under new ownership, which has decided to rebrand the company with a new logo and drop the word "Systems" from its trade name. The new logo features green hues and a circular emblem that evokes mountains and the sun.
