

Which is India's first border solar village?

Gandhinagar: Masali village in Banaskantha district has achieved a significant milestone by becoming India's first border solar village. All 119 homes in the village have successfully installed solar rooftop panels, collectively generating 225.5kW of electricity - exceeding the combined electricity needs of the entire village.

Where is the first 'solar village' in India?

Banaskantha: In a significant milestone for the country's solar energy program, the Masali village in Gujarat's Banaskantha district has become the country's first 'solar village' on the border. The village with a total population of 800 is situated at a distance of 40 km from the Pakistan border.

Where is Gujarat's First Solar Village?

Masali Solar Village: In a significant milestone for the country's solar energy program, the Masali village in Gujarat's Banaskantha district has become the country's first 'solar village' on the border.

Which Gujarat village has embraced solar energy with full force?

This achievement was announced by the Gujarat govt on Wednesday. Located 40km from the Pakistan border, Masali village, with a population of around 800, has embraced solar energy with full force. District collector Mihir Patel felicitated the village panchayat office-bearers for this feat on Wednesday.

How many solar panels have been installed in Gujarat?

All 119 homes in the village have successfully installed solar rooftop panels, collectively generating 225.5kW of electricity - exceeding the combined electricity needs of the entire village. This achievement was announced by the Gujarat govt on Wednesday.

What is a 'solar-powered center' in Saradhi Vav Taluka & Suigam taluk?

A committee was formed under the chairmanship of DC Mihir Patel with the aim of providing 24-hour electricity in the villages, situated on the border. The scheme was started to turn 11 villages of Saradhi Vav Taluka and 6 villages of Suigam Taluka and a total of 17 villages into 'solar-powered centers'.

2 ? All 119 homes in the village have successfully installed solar rooftop panels, collectively generating 225.5kW of electricity ??? exceeding the combined electricity needs of the entire village.

1 ? About Masali Village: Location: Banaskantha district, Gujarat, 40 km from the Pakistan border. Solarisation Scheme: Solar rooftops installed on 119 houses under the PM Suryaghar ???
