

Are solar panels a good option for your Indonesian home?

With the abundance of sunlight in the country, solar panels are a practical and eco-friendly option for generating electricity. However, with the variety of solar panels available in the market, choosing the right one for your Indonesian home can be a daunting task.

How to choose a solar system in Indonesia?

The capacity of the state electricity company (PLN) is a significant factor in determining the suitable solar system size. According to Indonesian regulations, grid-connected users must install a solar system with a kilowatt-peak (kWp) capacity that does not exceed their existing PLN capacity.

Who is solar power Indonesia?

Solar Power Indonesia aims to design systems that fit seamlessly into your lifestyle, reducing your costs, providing you with long term power security and reliability, while also minimizing your environmental impact. Solar Warrior is an EPC company providing all in one solar panel installation and service.

How much does a solar system cost in Indonesia?

According to Indonesian regulations, grid-connected users must install a solar system with a kilowatt-peak (kWp) capacity that does not exceed their existing PLN capacity. For new panels, expect a cost ranging from approximately IDR 10 million to IDR 20 million per installed kilowatt peak (kWp) for a standard rooftop solar system in Jakarta.

Who are the fastest growing solar companies in Indonesia?

One of the fastest growing companies in Indonesia, they currently have a portfolio of over 30 MWp solar projects, only 4 years into operation. They have completed more than 3000 residential solar installations to date. Based in Jakarta, ATW Solar also has a Solaristic Showroom powered by solar panels.

Can solar power generate my own energy in Indonesia?

With abundant sunshine in Indonesia, many homeowners often wonder: wouldn't it be great to harness all this sun to generate my own energy? With our custom designed solar photovoltaic (PV) systems, this is now easier and more lucrative than ever before.
