During the past decade there has emerged, in North America and Western Europe in particular, a fairly powerful movement to improve the social and environmental performance of large corporations and their affiliates and suppliers in developing countries. By examining the case of Indonesia, this paper looks at how effective this approach has been.

Prior to joining Quixotic Systems, Carl was a Senior Project Manager with both Pfister Energy and Bright Power. He also served as Director of Operations/Senior Project manager for Lenepe Solar Energy/HG CRT Solar in both Sunbury, Pennsylvania and San Juan, Puerto Rico. Previously, he was a project manager for RCS Energy Services and Solar City.

Program paper that discusses the corporate standard of Indonesian companies and the absence of a movement to adopt codes in Indonesian corporate culture. The primary focus is on the ???

By examining the case of Indonesia, this paper looks at how effective this approach has been. Two central questions are addressed. First, do corporate social responsibility (CSR) and ???

supported by Islamic business principles. While CSR may benefit a small minority of Indonesia's workers and those whose lives intersect with TNCs, the development of and adherence to a fair system of law and institutional reform would benefit all. Without such changes, CSR is likely to remain as quixotic dream.
