

How do I contact instagrid?

Our experts can advise you on any questions about buying or using Instagrid. Please enter your name and telephone number in the form on the right and we will contact you via telephone shortly. This is Instagrid. Pure instant power. Anywhere. We have created the world's most advanced portable power supplies, bringing freedom to the way you work.

What is instagrid technology?

Instagrid's technology replaces environmentally harmful combustion engines, such as those predominantly used today for portable power for construction, events or off-grid areas. Every year 50 million of these fossil-fueled combustion engines are sold.

How does instagrid work?

Instagrid solves this through proprietary power electronics and software which extract unrivaled peak power and allow Instagrid products to power anything with a plug." The focus on software and cloud-based access feels in some regards like the future of how batteries will develop and improve.

What is instagrid go?

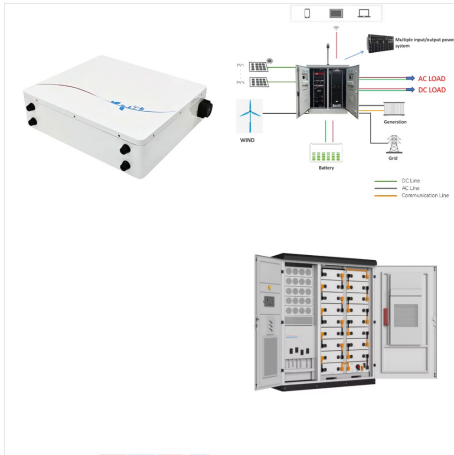

Visit Instagrid at UKCW Birmingham, and discover Instagrid GO -- your key to revolutionising the way you work, without harmful emissions. Instagrid keeps your crews safe & powers your most demanding equipment with ease.

Who uses instagrid?

Notable instagrid customers include Skanska, Loxam (Europe's leading construction rental company), Swiss Federal Railways, and the Red Cross. Instagrid is also part of the Clean Power Mobile Initiative, funded by Netflix and Disney. Users can also rent an Instagrid unit at locations across Europe.

Who is instagrid & Sortimo?

As a leading vehicle racking & transport company, Sortimo has many customers who rely on power sources that are both highly mobile and easy to use. Instagrid fulfils both needs while also offering a safe, local emissions-free alternative to heavy combustion generators.

Key Advantages of Instagrid ONE for Flood Relief:
Portability: Weighing only 20kg, the Instagrid ONE is highly portable, making it easy to transport to affected areas. Ease of Use: Featuring a plug-and-play design, the Instagrid ONE eliminates the need for complex setup or infrastructure, allowing for rapid deployment in emergency situations. Extended Run Time: With a single ???

instagrid General Information Description.
Manufacturer of portable battery storage intended to create mobile power infrastructures. The company's remote storage offers users a power supply for working at temporary locations, enabling customers to get products at reduced costs that replace highly polluting petrol and diesel generators.

At Instagrid, we embrace a work style that's refreshingly free from the ordinary. We're curious minds building category-defining products, so we maintain a healthy disrespect for the impossible. Collaboration is the cornerstone of our success; our cross-functional teams work seamlessly together to bring powerful innovations to life.

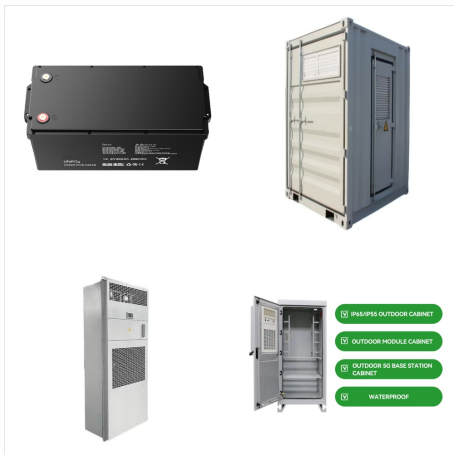

instagrid GmbH. Define the new way of working. No need to depend on grid or cabling anymore - bring electric freedom to your workday with instagrid portable power system. DE. FR. Discover electric freedom on construction sites. **LEARN MORE.** Be independent

Start-up Instagrid gewinnt Investoren Ludwigsburg - Das Start-Up Instagrid sagt Diesel-Generatoren für die mobile Stromversorgung den Kampf an. Das Unternehmen hat einen portablen Batteriespeicher entwickelt, der robust und emissionsfrei Energie für einen ganzen Arbeitstag liefern soll. Nun haben die niederländische Kapitalgeber Set Ventures

The analysis has been reviewed and certified by T?V Nord Umwelt GmbH. Learn more. Are the batteries thrown away after they've done their job? At Instagrid, we expect our suppliers and business partners to share our values and follow ethical business practices. Therefore, we have implemented Responsible Sourcing Principles based on the

Discover the difference. Ultimate portability: Instagrid GO is lightweight and compact, providing grid-like power wherever your job may take you. Reliable power supply: Pure sine wave output, high capacity, and peak power output ensure your tools and equipment run consistently. Green energy: Embrace decarbonization with battery-powered solutions, reducing your carbon footprint.

instagrid GmbH. Hermann-Hagenmeyer-Strasse 1 71636 Ludwigsburg Germany +49 7141 696240. instagrid . Contact. Profile Products News. Contact. About instagrid. instagrid is specialised in mobile off-grid batteries, driving the energy system transition for off-grid electricity, which today is still dominated by combustion engines. With its

Instagrid ONE max ??? design process unwrapped. The Instagrid ONE max is designed and developed to be robust, powerful, and easy to use ??? so that you don't need to worry about the power source and can focus on what you do best. In November 2021 the Instagrid ONE max was awarded with the German Design Award 2022 in Gold.

instagrid GmbH. instagrid ONE is the world's first portable 230V battery system designed for professional use. The lithium-ion cells are protected within a form-fitting frame, which allows the tool to be carried easily or stacked. The universal socket provides 3,600 W of continuous power without any direct emissions, and 2.1 kWh energy

Instagrid also publishes a White Paper with verified data on how battery technologies are significantly more sustainable than combustions generators. instagrid press@instagrid . instagrid is a specialist in high-power portable battery systems. We enable reliable and efficient access to clean and affordable electricity for anyone, anywhere and

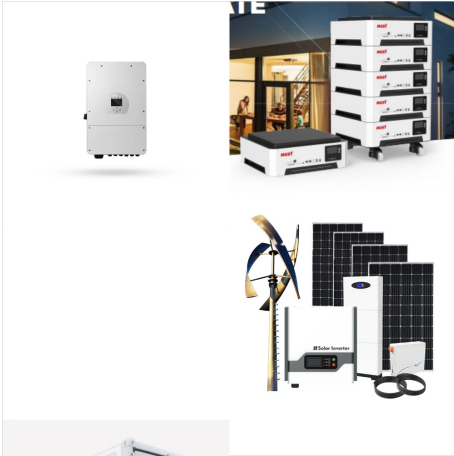

Instagrid raises \$95 mn and enters the North American market We are delighted to announce that we have concluded our Series C funding round of \$95 million. In 2023 we more than doubled our revenues and we will use the funding to continue our growth by entering the North American market, increasing production and expanding our range of mobile
