They are moderately waterproof, shielding your electrical appliances from indoor and outdoor hazards. Specifically, KDM IP65 electrical enclosures guarantee protection against water jets. Plus, our IP65 enclosures are fully

The IP rating system is described in the international standard EN 60529. An example of a typical IP rating is IP65. The two numbers indicate the degree of defense an enclosure offers against external liquid and solid items. The first digit represents solids. For instance, the six indicates that our IP65 junction box is completely dust

The industrial junction box with two bulkhead cutouts works with N206-Series industrial Cat5e/6 patch cables and N206-BC01-IND bulkhead coupler or N206-KJ01-IND keystone jack, the U325-Series industrial USB 3.0 cables and U325-000-IND bulkhead coupler and P569-000-FF-IND bulkhead coupler and P569-Series industrial 4K HDMI cables (all sold separately).

An IP rating of 69 is as high as it goes, and this will satisfy the vast majority of use cases. When in doubt, it's a good rating to consider. Of course, it's a matter of use cases. You can select an IP rating according to the exposure facing your electrical enclosure. If you need more water protection, move up the scale.
