When it comes to solar panels in Northern Ireland there is an added incentive to investing in the technology ??? the ROC system (Renewable Obligation Certificates). Solar panel suppliers have enhanced the efficiency of solar power systems to the extent that it is now a very viable option even in cloudier climates. The important thing to

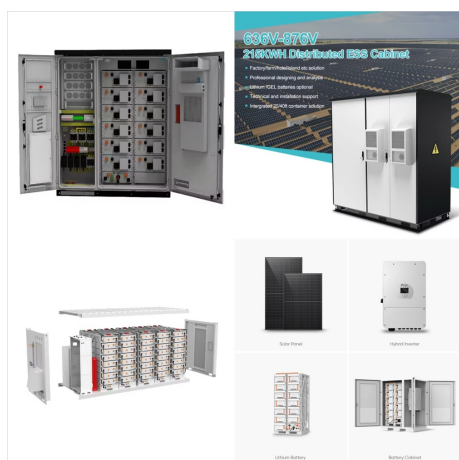

IRELAND SOLAR PANELS SUPPLIERS IN

Modern solar PV installations are effective even on cloudy days. Therefore, Cork is well-suited for solar energy generation, especially with south-facing or east-west orientations. Cooler climates, like Ireland's, enhance solar panel performance, and Cork's location in the sunnier southeast boosts energy production.

Assuming you have a standard solar panel with an efficiency of around 15-20%, you can expect to generate around 120-160 kWh per year per square meter of solar panels in Ireland. So, for example, if you have a 10 square meter solar panel system, you could generate around 1200-1600 kWh per year.
