

Who is island solar?

Island Solar is based in Nassau, Bahamas and is committed to installing safe, high quality, code compliant and long lasting solar electric (photovoltaic) systems in the Bahamas and across the Caribbean. We specialize in commercial systems from 50 kW to multi-megawatt utility scale systems.

Is Island Solar Service a good company?

Island Solar Service is exceptional and does a good job for their customers. They specialize in solar hot water. Kimo, from Island Solar, appreciates the opportunity to help customers understand their work.

What is solar islanding?

Solar islanding is when a home solar power system continues to generate electricity even though the grid is down. Many people would consider this a good thing, as your home still has power from your solar panels while everyone else has no power.

What is rooftop solar for Islands?

Rooftop solar for islands Swimsol provides affordable and durable marine floating & rooftop solar PV systems for the tropics, where land space is limited. We make solar energy a hassle-free experience by handling all the tech & maintenance. We work with ultra-luxury resorts and small businesses alike - always aiming to provide great service.

Can a solar power system be set up for safe islanding?

As we said earlier, your solar power system can be set up for safe islanding with a compatible solar inverter and substantial battery storage. With a safe solar island system, the inverter assumes a highly complex but crucial role during a power outage:

What is solar PV on a resort island?

Solar PV on a resort island a clear sustainability message to your clients and partners Swimsol provides a unique solution to achieve desired solar production capacity - floating solar powerplant at sea (offshore solar). SolarSea produces 5-10% more energy due to natural cooling at sea.

With energy prices soaring, there's never been a better time to join the solar revolution. And with Island Solar, you can be sure that your solar power system will always be working at maximum efficiency. Island Solar's proven solar design and installation process analyses your power requirements and creates a custom system ideal for your home.
