

Who is lundsby renewable solutions?

As one of Denmark's major biogas developers, Lundsby Renewable Solutions converts several tons of biomass to green and CO₂-neutral gas. We do this in the most efficient way by designing and building turnkey biogas plants. We cooperate with different suppliers of upgrading plants for the supply of biomethane for the natural gas grid.

Why should you choose lundsby renewable solutions?

Plants that also contribute to sustainable use of organic waste and a better aquatic environment. As one of Denmark's major biogas developers, Lundsby Renewable Solutions converts several tons of biomass to green and CO₂-neutral gas. We do this in the most efficient way by designing and building turnkey biogas plants.

Why did lundsby renewable solutions change its name?

In 2022, the name changed into Lundsby Renewable Solutions, one of the reasons being the intention of exploiting the company's international potential to the maximum. Lundsby has more than 25 years of experience with designing and building turnkey biogas plants.

Who is lundsby biogas?

Lundsby is the EPC (Engineering, Procurement and Construction) turnkey supplier of the project. The plant is designed to handle around 400,000 tons of biomass per year, corresponding to 120-gigawatt hours (GWh) worth of liquefied biogas (LBG).

Does lundsby provide a biogas plant?

Lundsby always delivers a thoroughly tested and commissioned biogas plant, as well as the associated proper training of the operating staff. We offer ongoing support, until the operating manager feels confident regarding both the technical and biological part of the biogas plant.

How can lundsby help you in the green transition?

If you wish to play an active role in the green transition by using biomass from agriculture, households, industry, etc., we help you make all ends meet and turn the idea into reality. Lundsby has more than 25 years

Outdoor Cabinet BESS
Up to 1000 kWh Battery Storage System
Industrial and Commercial Energy Storage

TAX FREE
1.3MWh BESS

- All in One: Integrating battery packs, inverter, and other components into a single cabinet
- High-capacity: 10-100kWh
- Intelligent Integration: Integrated communication, storage cabinet
- Rated AC Power: 10-100kW
- Degree of Protection: IP54
- Altitude: 2000m-3000m derating
- Operating Temperature Range: -20~40°C (Derating above 30°C)

Power Conversion System
Single-stage three-level modularization
Multi-branch input to reduce battery series and parallel connection
