

The Rural Spark Kit is a modular energy systemthat allows for increasing capacity over time.

What is a spark solar kit?

Provide access to clean, safe and sustainable energy with the Spark Solar Kit. Every Solar Kit is part of a complete ecosystem consisting of the products, our PayGo integrated Spark portal and on-site support. Thanks to its modular nature, the ecosystem grows along with the development of the village and needs of our partners.

How can early Solar adopters help a community?

Early solar adopters in a community can inspire other households, and build the movement with us. We want to connect network providers rather than build the energy grids itself. Our goal is to connect villages and cities to each other, and build an energy sharing platform.

The solar industry in Israel is not a big market in terms of solar installations like in Europe and the US, but its huge market in terms of technology and opportunities. Since the government law on 2008, thousands of installations of 5 KW up to ???
