

Does Ivory Coast engage with private energy companies?

Ivory Coast's engagement with private energy companies is not unique to the region. In fact, public-private partnerships are common across West Africa as they are equally popular with governments and private companies.

Will Ivory Coast achieve universal energy access by 2025?

With the 2030 Energy Plan identifying 66 projects that will require private investment, the door is open for new private partners to stake their claim. Ivory Coast aims to achieve universal energy access by 2025 and triple its generation capacity by 2030.

Do Ivorians have access to energy?

Three in five Ivorians have access to energy, but there is a vast discrepancy between urban dwellers (80%) and rural citizens (37%), with the rural north even less connected than their southern compatriots. With almost half of the country below the poverty line, the high upfront connection costs to the national grid remain prohibitive for many.

Is Ivory Coast a good place to live?

Ivory Coast is on an economic roll: since 2011, GDP growth has averaged 8% per year making it not just one of the most dynamic countries in sub-Saharan Africa, but the world. With the economy and energy demand booming, the Ivorian government has put the energy sector at the top of its agenda.

Oil and gas is becoming an increasingly strategic sector for Ivory Coast. The country has been expanding its existing crude oil production, with outputs of almost 60,000 barrels per day. Its ambition is to reach 200,000 BOE (barrel of oil equivalent) by 2020, as it pushes for foreign investment in offshore exploration.
