From this point forward, we cease to be a member of Johnson Matthey, and our company name, formerly known as Johnson Matthey Battery Systems, changes to EMBS. This strategic business decision represents a new era of prosperity and collaboration as we align ourselves with PRETTL Group on battery market.

Cummins announced its plan to purchase the British battery production capacities of Johnson Matthey specializing on electric and hybrid vehicles. As part of the agreement, both manufacturers Cummins and Johnson Matthey have agreed to cooperate for the development of enhanced lithium nickel oxide (eLNO) high energy battery systems.

JOHNSON MATTHEY BATTERY SYSTEM SURINAME

Johnson Matthey Battery Systems, part of the Johnson Matthey group and formerly called Axion, designs and manufactures advanced lithium-ion battery systems for electric vehicles and processes over 70 million cells per year. [1]

As part of the takeover, the company Johnson Matthey Battery Systems must be renamed. In order to maintain proximity to the established brand, the company will now operate under the name EMBS. The takeover was completed on May 1, 2024.

Design a complete battery system, ensuring high performance and quality. Secure component sourcing for battery cells and other components. Create in-house prototypes at each stage of the project.

JOHNSON MATTHEY BATTERY SYSTEM SURINAME

Following its acquisition by Johnson Matthey in 2012, Axeon has now rebranded as Johnson Matthey Battery Systems. With many years' experience of designing and producing high performance lithium-ion based systems, Johnson Matthey Battery Systems can provide a full design and assembly package.
