

Who is Jurchen technology?

Jurchen Technology supports customer's projects through planning, construction, commissioning, and operation phases. Our team is highly specialized and focused on providing solar solutions since 2008 with a long history of redefining solar providing innovative, optimized, cost efficient substructure and DC cabling solutions.

Who is Jurchen solar?

Active globally, Jurchen offers its customers know-how from the start of the project development to the acceptance of solar construction work. Jurchen has technical know-how supplied to over 500 solar projects in 6 continents, with over 3.6 GW of substructure and 4.2 GW of DC cabling.

Why should you choose Jurchen technology?

Our German in-house R&D center performs rigorous durability testing to guarantee a safe and long-lasting product. Additionally, our engineering team is able to provide solutions that are simplified and customized to customers' needs. Jurchen Technology supports customer's projects through planning, construction, commissioning, and operation phases.

PEG, High-Density Ground Mount Solar in the high-wind Caribbean and over 2.8 GW of substructure supplied by Jurchen Technology globally are all contributing to the bankability of the PEG. EPC Costs ??? Overall, there is a ~30-35% reduction in EPC costs excluding interconnect. EPC quotes can be provided on a project specific basis upon request.

Jurchen Technology USA and Blue Circle Energy Sign 60 MW MOU to Revolutionize Solar Energy Projects across Barbados with Sol Ecolution Funding Jurchen Technology US Corporation and BC Energy (Barbados) Inc., in partnership with BC Energy Projects (Barbados) Inc. (collectively known as "Blue Circle Energy"), are thrilled to announce the signing

Jurchen Technology se especializa en la fabricaci?n de subestructuras de alta calidad y cableado de CC para plantas de energ?a solar. Estamos orgullosos de la calidad de nuestros materiales y mano de obra, asegurando que nuestros productos est?n fabricados para durar incluso en las condiciones m?s duras.

Our Customers and Suppliers. Jurchen Technology strives for open and honest communication with the customer. We only promise whatever we are entirely certain of. The successful use of our product solutions in the field of solar mounting systems and DC cabling for 10+ years in 300+ projects is the standard by which we measure our daily performance.

La soluci?n doble e inteligente para sistemas solares. Jurchen Technology es el ?nico fabricante del mercado que ofrece sistemas de montaje solar y cableado de CC desde una sola fuente. Activo a nivel mundial, Jurchen ofrece a sus clientes el know-how desde el inicio del proyecto hasta la aceptaci?n del trabajo de construcci?n solar.

At Intersolar Europe in Munich, St?ubli Renewable Energy will showcase its new partnership with Jurchen Technology, using their cable harness manufacturing expertise to develop new advanced contact technology. St?ubli's MC4 connector is a name brand in the industry, comprising 540 GW of global PV capacity. Next up for St?ubli is the development and ???

Solar Key Cyprus ??? is the team of professionals with the reputation as a reliable and professional partner providing modern technological solutions in the ???eld of renewables sources. Solar Key Cyprus is the new distribution partner of Jurchen Technology in Cyprus. If you have any questions about products such as PEG or JuCon, please do

Yes it is. The low ~1m height above ground, the low 8deg tilt angle of the modules and the large number of ground contact per module significantly increases the system's robustness to high winds as was proven in few PEG projects globally installed in high wind reason.
