The project, developed by Kube Energy in collaboration with the government of the South West State of Somalia, and financed and further developed in partnership with CrossBoundary Energy, will establish the first hybrid solar power plant in Baidoa, Somalia.

MOGADISHU, SOMALIA - Somalia lacks a national power grid and relies on imported fuel, wood and charcoal to address its energy needs. But energy experts say with the longest coastline in mainland Africa and an average of 10 hours of sunshine per day, Somalia has great potential for onshore wind and solar power.

1 ? Baidoa and Jowhar, 15 December 2024 - The African Union Transition Mission in Somalia (ATMIS) has handed over two newly constructed solar-powered water projects to the Somali Police Force in

5 ? The federal government of Somalia has requested bids for a 10MWp solar PV plant with 20MWh of storage capacity, which would be the country's first utility-scale renewable energy plant. Sited in the Puntland capital of Garowe, the plant is part of a World Bank Group-funded programme to boost generation and create a new sub-transmission network.
